The Launch banner stand is a lightweight carbon tension banner stand, perfect for multiples. The graphics are interchangeable and can easily be changed and replaced as your message or branding changes, ideal for promotions. The banner stand simply rolls up into a lightweight carry bag, complete with graphic.

Tension banner stands are lightweight, highly portable and simple to use. Assembly generally takes two to three minutes. Banner graphics can easily be inter-changed because, unlike roller banner stands, the graphic is external to the stand.
